

## Iron Butt Association - Guidelines for the 4 Corners of Italy Ride

This IBA special ride is designed by Michiel Buitenwerf.

The 4 Corners of Italy takes you to the most northerly, southerly, westerly and easterly side of mainland Italy.

### Please note:

You can ride this as a Special Ride without any time and distance requirements or combine it. While this ride is a very demanding one it is fine to make it a Bun Burner 1500M (minimum 2500 km in 36 hours) or a SaddleSore 2000M (3200 km in 48 hours) as an IBA Ride Plus. This ride is a very demanding ride **therefore this IBA Ride Plus ride is for existing IBA MEMBERS ONLY.**

In addition to the general IBA Ride Guidelines, the following **specific rules** apply to the ITA4C:

In addition to the usual **filling station** receipts, the ride must be **documented** with photographs taken at the **following locations**:

- Northernmost point
- Southernmost point
- Westernmost point
- Easternmost point

**IBA Ride Guidelines** and an instruction how to create a **Ride Documentation** can be found here: [www.ibabenelux.org](http://www.ibabenelux.org) (-> IBA Documents).

## 4 Corners of Italy Ride GOLD

There is an opportunity to make this 4 Corners of Italy an IBA Special GOLD ride. For this you have to visit the following locations and do some walking to some points and take a selfie at that specific location:

- Highest altitude village of Italy, include a filling receipt of the tankstation
- Lowest point in Italy
- Geographical centre of mainland Italy

The geographical centre of mainland Italy is hard to define in a country like Italy, a boot-shaped country. There is a little stone as a mark of the centre, near the Formina Roman aqueduct. At the centre point a couple of signs and marks are situated.

*Make a selfie photo with the bow in the picture AND take a selfie photo at the marker.*

4CITA - Page 2 of 6

<p><b>Northernmost point</b></p> <p>47.05091698454643, 12.129406183058586 Westliches Zwillingsköpfl, Predoi, Alto Adige</p>	
<p><b>Southernmost point (mainland)</b> Melito di Porto Salvo</p> <p>37.91682083326508, 15.771378019012095 Via Porto Salvo, 89063 Melito di Porto Salvo RC</p> <p>Take a picture with your bike and the Santuario Santa Maria Di Porto Salvo</p>	
<p><b>Westernmost point</b></p> <p>45.04974186384408, 6.664534231650284 Rocca Bernauda, Bardonecchia, Piedmont</p> <p>On the Strada Provinciale 216 take a photo of your bike and the former border post.</p>	

### **Easternmost point of Italy**

Capo d'Otranto, Otranto, Apulia

40.10791391197132, 18.5165195864594

SP87, 73028 Otranto LE, Italy

Take a selfie with the Faro di Punta Palascia

*For the GOLD version of the ITA 4C:*  
Or take a photo with your motorcycle and yourself with the radar post

The following locations are for the GOLD version of the ITA4C

### **Lowest point in Italy**

Jolanda di Savoia -3.44 m (-11.3 ft)

44.884058752884, 11.97707845190964

3. Strada Provinciale Copparo-Codigoro,  
44037 Jolanda di Savoia

Take a picture of yourself (selfie) with the small mark

## The Geographical Centre of Mainland Italy

42.507088706873766, 12.538710188814004  
Loc. S. Lucia, Str. dei Pini, 21, 05035 Narni  
TR, Italy

It is hard to define the geographical centre of a country like Italy, a boot-shaped country. There is a little stone as a mark of the centre, near the Formina Roman aqueduct.

**Village on highest in Italy**

46.526560302331454, 10.1757396021436  
SS301 Fraz Trepalle, 23030 Livigno SO, Italy

Take a receipt at the ENI tankstation in  
Trepalle, Lombardije

Trepalle is a village (the highest in Italy) in the Italian Alps, a frazione of Livigno, Lombardy. It is considered to be the village located at the highest altitude in Europe (2,069 m or 6,788 ft at the parish church, with the village stretching up to the Passo d'Eira, at 2,209 m or 7,247 ft). Some argue instead that the village of Juf in Switzerland (at 2,126 m or 6,975 ft) is Europe's highest with permanent population, although the same maybe claimed by the Georgian village Ushguli located between 2100 m and 2200 m in Caucasus mountains.

This is an IBA members only ride.

You can do this ride combined with a certification of a SS2000 (3200 km in 48 hours), a SS2000 GOLD 3200 km in 36 hours, or a BB 1500M (2500 km in 36 hours) or a BB2500K
